ABOUT FLYING DOCTORS

The Flying Doctors Nigeria is one of the leading air ambulance companies in Africa. We provide air ambulance services, ground ambulance services, remote site services, training and consultancy to governments and business organizations across Africa.

- Nearly 20 aircraft in our fleet; same as those used by leading air ambulances in UK, USA and Canada.
- First indigenous air Ambulance Company in West Africa with a nearly 10 year history of safe, professional operations
- Transport from major Nigerian cities including Abuja, Lagos and Port Harcourt. As well as major countries in West Africa such as Mali, Senegal, Cameroon and Chad.
- Leading air ambulance for both jets and helicopters
- Response time of as short as 30 minutes
- 100% safety record. The best in the industry
- Critical care doctors on duty 24/7. 365 days a year.
- Completely physician-led. Which means complex, life-saving procedures can be carried out on the helicopter or jet en-route to hospital
- We also provide our unique medevac cover plan which saves evacuation costs in the event of an evacuation

TEAM

Dr. Ola Orekunrin. MBBS
Founder
Trained in the UK. Dr. Ola is also a trainee helicopter pilot. Determined to improve the healthcare delivery system in Nigeria. She set up Flying Doctors Nigeria. West Africa's first indigenous full air ambulance service. Since then. She has successfully steered the company upwards in achieving its corporate goals and ensuring sustained growth.

Captain Kiddie Dare
Board of Directors
Captain Kiddie Dare is our aviation consultant and he is one of the most-respected figures in the Nigerian aviation industry. He relocated back to Nigeria from the USA where he took up his position as a senior executive in ExxonMobil. In the aftermath of the disastrous plane crashes of 2006, he was head-hunted by the Nigerian Civil Aviation Authority (NCAA) where he together with Dr Demuren-Head of the NCAA, com-

Dr Leke Pitam, MD
Board of Directors
Dr Leke Pitam was appointed Commissioner for Health by His Excellency the former Governor of Lagos State Asiwaju Bola Ahmed Tinubu. His commitment to the provision of equity in service, led to the establishment of LASAMBUS State Ambulance Services in 2001. Dr. Pitam has received many awards and honours in recognition of his various contributions to the service of humanity.

Dr Tunde Ayeye, MD
Board of Directors
Dr Tunde Ayeye is a seasoned entrepreneur who owns several facilities management companies across Africa. He is an advisor to the vice-president on health matters. He is also an alumnus of Harvard business school.

MEDICAL CREW TRAINING

All our doctors/flight medics are trained to international standards. We adhere to the highest standards of medical practice, as our air ambulance cases are reviewed both internally and externally by foreign experts and held to the highest clinical practices at all times.

All our staff are trained regularly Compulsory periodic training modules include. Among others:
- Flight Physiology
- Crew Resource Management and Infectious Diseases
- Trauma Life Support
- Critical Care Transport

Senior Flight Physicians

Our flight physicians are some of our senior anesthetics and intensive care experts with certificates in aviation medicine. They are products of rigorous and detailed in-house course with hundreds of hours of in-flight working experience on various air ambulance missions both within and outside the country. They have extensive experience in performing critical care procedures like intubation. Central line insertion and other forms of invasive monitoring whilst in the air.
OUR AIRCRAFT

Our pool consists of up to 20 aircraft comprising of helicopters and planes/jets suited to the particular emergency situation and need of each client. These industry-standard aircraft are same as those used by leading air ambulance services in USA, Canada and UK.

Our aviation fleet includes models for:

Rotary Wings (Helicopters):
- Eurocopter AS350 Ecureuil
- Sikorsky S-76
- Bell 412 EP
- Agusta A190E

Fixed Wings (Planes/Jets):
- Hawker 800, 850, 900, 4000
- Citation Sovereign
- Lear Jet 45

PACKED & PREPARED

Flying Doctors Nigeria is always mission-ready, 24/7 and 365 days of the year. Equipped with the latest medical equipment and a full range of disposable medical supplies.

Our operatives and aircraft are on standby. Anytime of the day or night. Fully packed with state-of-the-art gears such as:

- Oxylog 3000 ventilations
- Multiparameter Monitors (e.g. Lifepak 12)
- Inter Osseous Access
- Nebulisers
- Asherman Seal for Open Chest Wounds

- Infusion Pumps
- Automated Defibrillators
- Pulse Oximeters
- Automatic Suction Units
- Scoop Stretchers and Vacuum Mattresses

- Traction Splints and Neck Collars
- Oxygen Masks
- Airways Adjuncts
- Intravenous Fluids (Crystalloids, Colloids)
- Current ACLS Medications amongst others

Emergency Transport Unit

The emergency transport unit is a removable medical cabin placed into a scheduled commercial flight used to transport patients across the Africa and the world at as low as 10% of the price of a full air ambulance. We are they only contracted medical evacuation providers for both Arik and Medview airlines in West Africa. We also partner with a number of international airlines across the world.
AIR AMBULANCE / MEDICAL EVACUATION COVER

Our air ambulance cover product gives you peace of mind by providing emergency medical evacuation and payment for hospitalization in your country or abroad (Up to $1,000,000) for a yearly membership payment of as little as $50 monthly. Our medevac cover package covers the full cost of an international medical evacuation and a full of in-hospital medical treatment, protecting you from the financial/forex loss of an unexpected emergency medical evacuation and hospitalization.

CLINICAL GOVERNANCE

One of our major differentiating factors is our sophisticated clinical governance program which includes intensive clinical flight physician training, crew resource management training and external international audits. This in addition to our equipment maintenance program and clinical documentation system ensure that we are offering the highest standards of service every single time we fly.

CORPORATE ORGANIZATION

We operate medical and medico-logistical services for corporate bodies running high-risk operations such as:

- Oil and Gas
- Mining
- Construction
- Telecoms
- Manufacturing

Flying Doctors Nigeria has specialized medical evacuation cover for corporate bodies to accommodate the speedy handling of emergencies arising from work-associated incidents. Our cover packages provide FREE medical evacuation and hospitalisation in the event of an emergency for a small yearly fee.

Operations in these sectors often involve expatriates and indigenous employees’ direct exposure to:

- Working at great heights
- Driving long distances on poorly maintained roads
- Working offshore or
- Working at remote stations
- Operating in extreme environments
- Endemic infectious diseases such as malaria
- Natural and operational disasters

"Accidents usually happen accidentally and at the most delicate points"

“
All of these couples with instances of deficient medical infrastructure can have serious effect on workers' health which significantly impacts on efficiency and productivity.

With the new ‘Occupational Health and Safety Legislation’ in Nigeria, employers are required to show demonstration of management of occupational risks, this could go a long way to protect the business from possible and expensive litigation.

Availability of rapid, efficient medical care and provision for evacuation/ rescue by air has made the difference between life and death in cases of emergencies arising from work-related incidents.

BEST OPTION FOR HIGH-RISK OPERATIONS BUSINESSES IN THIS REGARD
CONTACT US TODAY TO DISCUSS YOUR COMPANY’S OPTIONS.

Most common industrial accidents include:

- Falling from height
- Explosion/Fire
- Motor Vehicle Accidents
- Falling objects
- Machine Accidents

Our range of services for corporate organizations includes:

- Repatriation to our partner hospitals in USA, UK, South Africa, Turkey, Egypt, India etc.
- Emergency transfer by road or air to best local hospitals

Litigation by employees, over health & accident-related issues, cost industries in Nigeria billions of naira per year.
REMOTE SITE MEDICAL SOLUTIONS

Your company can benefit from our expert healthcare wherever you are located. Depending on your company’s medical requirement, we can provide international standard modules that complement your medical department. Your company may find us useful in the following areas:

**Staffing Solutions**
Sourcing of trained doctors, nurses and paramedics for your onshore or offshore on-site operations

**Medical Training**
We offer courses in life support and first aid tailored to meet specific client needs

**Video Link**
24/7 medical expert support through our video conferencing and telephone services

GOVERNMENTS

We provide integrated medical/clinical, logistical and infrastructural service for state governments across Nigeria including:

- Construction of New Hospital Facilities, Helipads and Clinics.
- Pioneering and Improvement of State Land Ambulance Services.
- Major Incident Planning (Handling Disasters)
- Air Evacuation Services for Trauma Victims
- Disaster management
- Procurement of Medical Equipment
- Training for Doctors and Nurses
- Standby Coverage of State Events
- Inter-Hospital Transfers
- Medical consultancy

Tens of thousands of Nigerians die in Nigeria each year because they are unable to get to well-equipped hospitals within the right timeframe. Our services help to solve this problem.

MANAGEMENT OF MEDICAL FACILITIES

Procurement: of ground ambulances, boat ambulances, medical equipment, drugs and consumables

Emergencies: Medical response, emergency medical care

Other Healthcare: Primary healthcare, occupational healthcare
MAJOR EVENTS

Are you planning a major event? You may wish to contact us today.

We assist event organizers to analyze relationships between risk, safety and security as well as planning for and responding to emergencies at events.

We provide standby helicopters and land ambulance cover for various large business, government and sporting events and any event casualties are handled rapidly and effectively by our doctors on-site and transferred to hospital if necessary.

GETTING TREATMENT ABROAD?

Patients who require specialist treatments abroad can benefit immensely from our working relationships with top medical partners in about 22 countries including UK, Malaysia, South Africa, India, Turkey, Egypt, Saudi Arabia, among others.

- Repatriation
  We can arrange either commercial or private air ambulance for our patients depending on their particular need.

- Consular Services
  We can assist in visa procurement for patients and process/write the supporting documentation. However, we do not guarantee any patient a definite visa.

- Liaison
  We can book medical appointments with specialists and medical facilities abroad for our patients as well as keep their families and/or sponsoring organizations abreast of developments.

INDIVIDUALS & FAMILIES

We cater for individuals and families through our Personalized Membership Plan. With a simple call to our hotline, members get direct access to a premium level of care.

In this package we can:
- Help arrange a doctor visit either from within Nigeria or abroad.
- Re-fill medications
- Organize inter-hospital transfers
- Assist in emergencies using either air or land evacuation services

FOREIGN PARTNERSHIPS

We maintain a working relationship in over 22 countries with hospitals, ambulances, mobile clinics, practitioners, specialists and physiotherapists.

Our Medical teams have transported patients to and from almost every country.
MEDICAL ASSISTANCE SERVICES

Our provides a comprehensive, integrated, global assistance network in unparalleled in Sub-Saharan Africa. We provide medical assistance needs of business travellers, expatriates and local nationals wherever they may be located globally. Our alarm centre in London is open 24/7, providing a single point of contact to gain immediate access to expertise, advice and help on the ground.

The combination of our varied network, local knowledge and expertise have helped us become the leading emergency and medical assistance firm in Africa.

- Hospital Admissions for our members
- Ground Ambulance Services across West Africa
- Investigations on behalf of insurers
- General medical advice for members
- Vaccination and travel health advice for members
- Arrangement of international medical appointments and referrals
- Medical second opinions
- Management of international assistance medical cases
- Claims processing
- Third Party Administration
- Emergency medical evacuation and repatriation
- Repatriation of mortal remains
- Medical Consultancy
- Malaria prevention/prophylaxis program planning
- Infectious Disease consulting

All cases are managed by medical team who are all highly experienced experts in international healthcare delivery and pre-hospital/air ambulance medicine. Our medical team is supported by an extensive global network of primary and secondary healthcare facilities.

GOLDEN HOUR OF TRAUMA & OUR SPECIALIST PARTNERS

Victims of trauma must be delivered to hospital within 60 minutes. This time interval is known as the internationally accepted GOLDEN HOUR OF TRAUMA.

Although we have international network of partner-hospitals across UK, South Africa, India, Dubai, Turkey, Morocco, Egypt, Saudi Arabia, among others, yet, with time-critical medical conditions we are bound to deliver the right patient to the right specialist facility within the right time-frame.

We continually achieve this feat by partnering with the following state-of-the-art facilities (often being the only operator licensed to land directly on the hospital ground or very close by):

The Reddington Hospital | First Cardiology Consultants

Referral Centre for: Heart Attacks, Acute Heart Failure, Pulmonary Emboli (Clots in lung), Neonatal Intensive Care.

The Reddington Hospital houses ONLY digital angiography suite in the country. When a patient suffers a heart attack, research evidence suggests that the patients who receive acute intervention within the first 60 minutes have the best outcomes. We make this possible.

Our helicopter lands 7 minutes from this facility.

St. Nicholas Hospital

Referral Centre for: Internal Medical Emergencies (e.g. Acute Renal Failure, Liver Failure), General Surgical Emergencies (e.g. Perforated Viscus, Abdominal Trauma).

Over 100 kidney transplants have been performed at St. Nicholas Hospital. This is probably more than all the other Nigerian hospitals put together! St. Nicholas is the destination of choice for general medical emergencies as well as surgical emergencies that may develop medical complications in the post-operative period.

Eko Hospital

Referral Centre for: Oncological Emergencies, Some Trauma.

Being one of the most reputable facilities on the Lagos mainland, the expert oncologists and trauma surgeons, along with its cost-effective packages make it one of our important destinations.

Our helicopter lands 3 minutes from this facility.

Primus Super Specialist Hospital, Abuja.

Referral Centre for: Spine Surgery, Orthopedic Surgery, Bariatric Surgery, Total Hip Replacement, Total Knee Replacement, and much more.

The Nigerian branch of the Super Special Hospital (reputed to be the best in India) has some of the finest medical experts in different surgeries and other specialties.

Our helicopter lands 10 minutes from this facility.
